Marek Musiol, Adam Bennett & Lucy Pendlebury

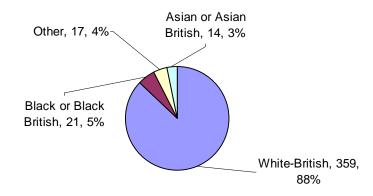

This report has been compiled to give information about the offenders (beneficiaries) worked with on the PS Plus 3 project in HMP/YOI Hindley - a male closed Young Offenders Institution in the North West. The project ran for 14 months between 1<sup>st</sup> April 2007 and 30<sup>th</sup> June 2008, in which time 411 beneficiaries were started on the project. At its peak, it is estimated that the project worked with approximately 30% of the prison population.

Of the 411 beneficiaries started, 20% (82) left the project early with 100% of these transferring to a non-PS Plus prison establishment.

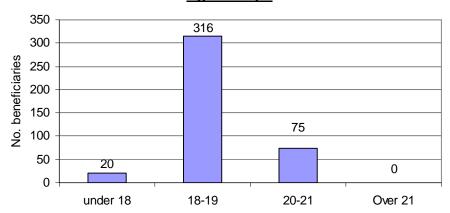

#### **Demographics**

#### **Assessment**

- For the majority of prisoners (where known), the level of risk posed towards adults, children, other prisoners, the public and themselves is low. Less than 3.5% were classed as high or very high risk in each category.
- Every beneficiary required help with either employment or education. 401 (97.5%) beneficiaries required help with employment, while 385 (94%) required help with both employment and education.
- 172 beneficiaries were identified as requiring assistance with substance abuse, with 25% and 27% of beneficiaries requiring help with alcohol and drugs issues respectively.
- Comparison to the rest of the beneficiaries worked with in male PS Plus prisons shows that beneficiaries started at Hindley were significantly *less* likely to require assistance with drugs, education, finance, health, housing, life and relationship issues.
- Comparison to beneficiaries worked with in other male PS Plus prisons shows that beneficiaries in Hindley were significantly more motivated on starting the project.
